MORNING SPECIAL

Getting Back to Life After Breast Surgery

Breast Surgery can have a tremendous impact on how a woman feels physically and emotionally. It can also affect how she functions everyday. Physical therapy can help women who have had breast cancer get back to life faster.

Speaker:

Michelle DeLa Rosa, P.T., D.P.T

Senior Physical Therapist

Women's Health Program

Shore Road Sports Therapy and Rehabilitation

Friday November 14th 2008

11 a.m. – 12:00 p.m.
